

About OCC

Olney Central College is a two-year public community college located on Ill. 130 across from the city park in Olney, Illinois.

Olney Central College offers a variety of educational opportunities with transfer degrees and technical programs that prepare our students for careers in today's competitive job market. Since its founding in 1963, OCC has been dedicated to providing students with a quality education at an affordable cost. OCC's small class sizes ensure our students receive one-on-one instruction from faculty members dedicated to their success.

OCC continues to receive recognition for its completion and graduation rates, earning it rankings as the No. 1 Community College in Illinois and one of the Top 150 Community Colleges in the nation.

In addition to its outstanding academics,

OCC offers students an active campus life. Students can participate in numerous clubs and organizations such as Student Senate and Phi Theta Kappa. Students can also attend athletic and other college-related events. The OCC Music Department includes Concert Band, Concert Choir and Jazz Ensemble, which are open to all OCC students, regardless of major.

OLNEY CENTRAL COLLEGE

Our mission:

Our mission is to deliver exceptional education and services to improve the lives of our students and to strengthen our communities.

an Illinois Eastern Community College

WHAT WE DO

The Industrial Maintenance Technology program is designed to train students for employment and advancement in today's technologically advanced industrial workplace. The program provides students with a progression of three certificates that leads to the degree. In addition, students complete courses in "Selected Technical Studies" which include welding, machine trades, process control, and other technical areas.

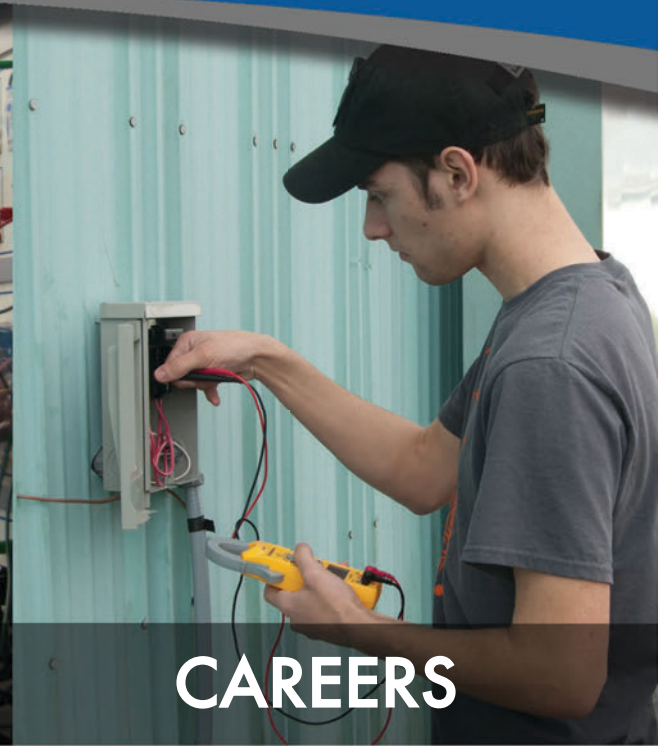

The program also provides current industry employees the opportunity to complete course requirements while maintaining a work schedule.

WHAT YOU LEARN

During the program, students study pneumatics, hydraulics, relay controls, motor controls, robotics, mechatronics, welding, refrigeration, and programmable logic controls including Allen-Bradley, Siemens, and Mitsubishi.

Most IMT classes are hybrid courses, which allow students to complete some coursework at home or in the computer lab while still maintaining face-to-face contact with the instructor.

CAREERS

Refineries, power plants, manufacturers, and even hospitals need technicians with mechanical, electrical, and PLC training to keep their facilities running. The certificate and degree programs qualify graduates for control technician, machine maintenance, and electrical positions or advancement in these various industries.

Students may choose to continue their education at a four-year university. Coursework included in the IMT Degree transfers to Southern Illinois University's Applied Engineering and Industrial Management Degree. Students can complete all but the 42 credit hours of degree-specific classes at OCC.
