

2020 Innovation in Teaching Technology Award Recipients

The Innovation in Teaching Technology Awards provide monetary support for projects that lead to the development of innovative teaching strategies within the IECC district. I am excited to announce this year's recipients:

Cynthia Boyce and Kim Schucker

Building Technology Bridges across the Accessibility Gap.

Grant award will purchase HudlCameraHD Simpltrack2 cameras, wireless keyboards and microphones, TVs, NUC mini computers, and Elgato 4K60 Pro to stream the classroom on Zoom.

Kenneth Harris

Enhancing the Student Experience by Incorporating a State-of-the-Art Telescope and Astrophotography.

Grant award will purchase a Celestron telescope and software used to find, track, and photograph celestial objects and a computer dedicated to astrophotography.

Steve Hnetkovsky

Application of Robotics in Production of Crops Using FarmBot.

Grant award will purchase FarmBot, planter bed supplies, grow lights, conference attendance, training, and travel expenses.

Philip Thorsen

Activity Mobility.

Grant award will purchase Perk contoured task chair units to improve mobility and collaboration in the classroom.
